OPENER:

Circle left. I was driven' down the highway, in a big black limousine. My record went number one today in the billboard magazine. **Allemande left** your corner lady do a **dosado** your own, now the **men star left** and roll it turn it one time and then. **Turn your partner by the right** and you go **left allemande**. **Swing** your partner once and then you **promenade** the ring. Give me one more night and it'll make my dreams come true. 'Cause I'd give it all up if I could spend just one more night with you!

FIGURE (twice for heads, twice for sides):

Head two couples promenade go **halfway** 'round the ring. Come down the middle and **touch 1/4** do a **walk and dodge** and then (make a wave). **Swing thru** you know now the **boys run** to the right. **Bend your line, move up to the middle and back** and do a **right and left thru**. Well you **slide thru** and **square thru go three hands** and then. **Swing** your lady go once around and then you **promenade** her home. Give me one more night, and it'll make my dreams come true. Yes I'd give it all up if I could spend just one more night with you.

MIDDLE BREAK:

Sides face **grand square**. Well, I was born a poor boy, so poor I had no shoes. But now I'm buyin' all my jeans at Sak's Fifth Avenue. And my friends they all keep tellin' me that they think that I'm a fool 'cause I'd give it all up if I could spend **four ladies promenade**. You go one time 'round the ring. Get back home, **swing** that lady then **promenade**. Give me one more night, and it'll make my dreams come true. Yes I'd give it all up if I could spend just one more night with you.

CLOSER:

Four boys promenade go one time 'round the ring. Get back home and **swing** your baby one time round you go. Join your hands and **circle to the left** go walkin' 'round the ring. **Allemande left** your corner lady then **weave** on down the line. Give me one more night, one more night of lovin' you. Hold me in your arms, the way you used to do. Give me one more night and it'll make my dreams come true. 'Cause I'd give it all up if I could spend just one more night with you.
